

WELCOME TO THE CIRCUS!

NAME PLEASE _____ THANK YOU

1. What is the difference between the two balloons?
2. What is happening to the balloons?
3. What happens to the air around the balloon?
4. Which way does the released air go?
5. What restricts the speed of the released air?
6. What's happening?
7. What will happen if we keep blowing?
8. How big is the "Magic Hole"?
9. How does the hole size correspond to the speed at which the air is released?
